The purpose of the University of Florida, College of Liberal Arts and Sciences (CLAS), Department of Geological Sciences (DGS), Geological Sciences Advisory Board (GSAB) is to advise and assist the Department in developing curricula to prepare students for work in their selected pursuit after graduation. The GSAB will also act as an advocate for the DGS in order to develop metrics outlining the success of the Department to CLAS. In addition, the GSAB will act as an ambassador for the DGS to increase the awareness of the department’s needs, successes and long-term goals so the DGS can prepare interested graduates for a successful career in the geological sciences.

The GSAB shall consist of 15-20 members, representing various entities that employ geologists (i.e., state and federal agencies, environmental resource managers (water, shoreline, soil, etc.), environmental consulting firms, water resource agencies, providers of geological or engineering services, universities, and industry - including petroleum and gas, phosphate, sand and gravel, construction materials, mineral sands, clay and peat, and other natural resources). Membership shall not be limited to those with undergraduate or graduate ties to the DGS, but may include alumni, friends, industry and agency representatives, and/or faculty of the University of Florida and the DGS.

The GSAB shall meet at least one time each year during the fall but a meeting may be scheduled at other times as deemed necessary by the Chair of the DGS and Chair of the Advisory Board. This Charter may be amended as needed through a majority vote conducted during the first meeting of each calendar year.

Primary functions of the GSAB are:

- To advise the DGS in developing a curriculum that prepares students for post-graduate employment
- Assist the DGS in the development and establishment of useful metrics to be used for benchmarking, marketing to internal and external audiences, and strategic planning.
- Provide advice for DGS in order to prepare students interested in employment in industry and public service
- Serve as ambassadors of the DGS and its programs
- Assist the DGS and UF Foundation staff in fundraising efforts
- Sponsor, at the direction of the DGS Chair, departmental outreach efforts
- Promote expanded departmental educational programs
- Encourage Alumni and Friends of the DGS to support and participate in departmental activities and GSAB roles.
Position Description for the GSAB Members

1. Value the role of DGS in developing geology graduates for meeting the critical needs of society
