COURSE DESCRIPTION

This course is designed to expose students to a broad spectrum of topics in Earth, Ocean, Atmosphere and Planetary Sciences. Seminar speakers will talk about their recent research achievements and other related topics. (***N.B. During the Spring 2023 semester, most of our seminar speakers will be candidates who are interviewing for one of the three open faculty searches that we are currently conducting.***)

Course Objectives: It is the goal of this course that students will:

- Learn about cutting edge research in Earth, Ocean, Atmosphere and Planetary Sciences.
- Briefly convey the primary “take-home” messages from the lectures, in written form

COURSE MATERIALS

There are no specified materials for this course, though some speakers may choose to make selected articles available

ASSESSMENTS AND GRADING

Grades will be based on submission of 10 brief seminar reports during the semester, one for each speaker. If, for some reason, we don't have at least 10 speakers, then the number of required reports will change accordingly. Requirements for seminar summaries are outlined below:

- 1) After each seminar, write a short (one-page, double-spaced) report, listing and briefly discussing the most important points of the presentation. Ten (10) reports are due over the course of the semester. Each report will be due prior to the following week's seminar (e.g. a report on the Sept. 1 seminar is due before 3:30pm on Sept. 8). 10 points (from a possible 100) will be deducted for each week that the report is late.

- 2) A list of speakers is posted on the Geological Sciences website and titles will be posted as they are received: <http://geology.ufl.edu/seminarseries/>
- 3) Most seminars will be hosted by Geological Sciences, but now and then we may designate a seminar hosted by another department or center (e.g. Biology, Water Institute, Climate Institute) as our official seminar for the week. The same reporting guidelines apply.
- 4) Upload the report (**as a .pdf**) to the GLY 6931 Canvas page before the following week's seminar – see example in 1) above. Include your name and the speaker's name in the frontmatter of your report.
- 5) If you cannot join a seminar and have a reasonable conflict, contact me to arrange a make-up or substitution. It may be possible to substitute another seminar if you arrange to do so ahead of time, and if you identify interesting seminars in other units, by all means, attend them. But it is expected that you attend GLY seminars, as we want to show speakers the courtesy of our presence.

COURSE AND UNIVERSITY POLICIES

Academic accommodations for students with disabilities

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center. Students can copy and paste the following link to obtain information about accommodations (<https://disability.ufl.edu/get-started/>). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Course evaluation process

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Academic Honesty Policy

UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the

University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code specifies a number of behaviors that are in violation of this code and the possible sanctions. Go here to read the Conduct Code (<https://sccr.dso.ufl.edu/process/student-conduct-code/>). If you have any questions or concerns, please consult with the instructor or TAs in this class.

In-Class Recording

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor. ***(N.B. If the seminar speaker has announced that they are unwilling to have their presentation recorded, then recording is not permitted.)***

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.
